EDITOR'S LETTER The land may be gripped by winter, but our hearts know that spring is just around the corner. With the first of the year behind us, it's time to awaken the senses and stir the imagination!

If your tactile sense is highly evolved, you appreciate the rush of pleasure from fine yarns. From infancy, learning about anything included our sense of touch. It should come as no surprise that hand knitting's appeal called out to us so clearly!

In this issue, we challenged designers to take us on an adventure in textures. Seed stitch, garter stitch, hearty ribs, surface textures and cables display the fun that knits and purls can produce when creative minds get to work.

Wander through the designers' ideas, and let your needles take you wherever your sense of direction leads. Get into the mood of renewal, and embark on a project for spring! Perhaps we'll meet on a yarn safari, or in a local yarn shop, in pursuit of the project of our dreams.

Until later,

CREATIVE LETTERS

Our readers are creative, frustrated, generous and perfectly fitted!

Creative Idea

The "Beehive Tea Cozy" in your May 2008 issue was very inspiring. I truly enjoy knitting baby hats and thought you might like to see where your theme took me.

Your magazine certainly allows one to knit creatively. Thank you for your fabulous ideas!

Yarn Frustration

The beautiful pink cardigan sweater on the cover of *Creative Knitting* May 2008 really piqued my interest. However, I have been unable to find the yarn. Why do you do this? If you put it in your magazine, especially on the cover and with the pattern inside, why can't you make the yarn easily accessible? I am very disappointed.

Betty Dean, VIA E-MAIL

One of the details of publication is making sure that the yarn used is available at the time the issue is presented, but things beyond our control may change. Perhaps your local yarn shop does not carry that brand of yarn, or you prefer to use another color or a different yarn from the sample. To make this

easier, the skein symbol with the #4 inside indicates that nearly any medium weight (worsted) yarn may be substituted for the stated yarn. Many knitters find this system very helpful; we hope you will, too —Editor

Giving to Others

Something I like to do with the little extras of yarn I have is give them to my grandchildren's teachers for art projects. The teachers appreciate it very much. They have a hard enough time to make ends meet, and this is just one less thing they have to buy. You can also offer to show the kids how to knit or crochet. Most of the elementary students are fascinated with how a sweater or even a simple scarf is made.

Linda Sears, VIA E-MAIL

Future knitters are in today's classrooms. —Editor

Perfect Fit

I am 59 years old and find your patterns right for any age! I've just completed the sweater on the cover of your September 2008 issue—in the exact colorway in Jasper—and believe me, it's perfect for me and my 23-year-old daughter. Keep up the good work!

Geni-Ellen Baer, VIA E-MAIL

So many readers loved this pattern. Look for another Andra Knight-Bowman design soon! —Editor

We review knitting books to help learn new intarsia skills, remember designs from the past and take a hike.

Vintage Knitwear for Modern Knitters

By Lise-Lotte Lystrup
(\$19.95, Thames & Hudson,
2008, 96 pages)

Despite all the headlines about how knitting is new, the craft has been around for quite some time. While some clamor for the latest styles, do you find comfort in the classic designs from the 1930s, 1940s and 1950s? Even if you could find an original pattern from that era, you would soon note that the directions may be fuzzy, the yarns in very small gauge and the sizes scaled for much tinier ladies. With a history of replicating period knits for film and theater works, the author has updated the styles with modern yarns, clear instructions and proportions to fit today's women. Original photographs are displayed with the new versions. You might find you are glamorous in the same style your grandmother loved!

How to Knit in the Woods

By Shannon Okey
(\$16.95, Skipstone, 2008, 119 pages)

If your nature-loving spouse wants you at his side while camping, take heart, your knitting needles and this book! The author suggests materials and projects that can stand up to the great outdoors and has included hints for enjoying that next excursion even more. After the basics, she offers not only rugged sweaters for him and her, but also a knitted camp stool, hats, mittens, socks and padded boot inserts. Even the family dog has his day with a comfy sweater. This book makes me yearn for a trek, a campfire and s'mores! Slip it into your backpack and go take a hike!

Picture Perfect Knits

By Laura Birek
(\$19.95, Chronicle Books,
2008, 128 pages)

Those complex-looking picture knits which appear to be drawn with yarn are not nearly as challenging as new knitters might think. Author Laura Birek leads one gently through the mysteries of intarsia, calmly discusses the preferred yarns and then gives you the graphs to make more than 75 patterns. Designing these into your individual garments is a breeze with her clear instructions. The charts make this book ideal for beginners in intarsia. Some patterns are included, but this as more of a point of departure than a stitch-by-stitch how-to book. Get some knitter's graph paper and have some intarsia fun!

Black Listed Cancer Treatment Could Save Your Life

Baltimore, MD—As unbelievable as it seems the key to stopping many cancers has been around for over 30 years. Yet it has been banned. Blocked. And kept out of your medicine cabinet by the very agency designed to protect your health—the FDA.

In 1966, the senior oncologist at a prominent New York hospital rocked the medical world when he developed a serum that shrank cancer tumors. Headlines hit every major paper around the world. Scientists and researchers applauded. Time and again this life saving treatment worked miracles, but the FDA ignored the research and hope he brought and shut him down.

You read that right. He was not only shut down—but also forced out of the country where others benefited from his discovery. That was 38 years ago. How many other treatments have they been allowed to hide? Just as in the case of Dr. Burton's miracle serum these too go unmentioned.

Two-Nutrient Cancer Breakthrough...

Decades ago, European research scientist Dr. Johanna Budwig, a six-time Nobel Award nominee, discovered a totally natural formula that not only protects against the development of cancer, but people all over the world who have been diagnosed with incurable cancer and sent home to die have actually benefited from her research—and now lead normal lives.

After 30 years of study, Dr. Budwig discovered that the blood of seriously ill cancer patients was deficient in certain substances and nutrients. Yet, healthy blood always contained these ingredients. It was the lack of these nutrients that allowed cancer cells to grow wild and out of control.

By simply eating a combination of two natural and delicious foods (found on page 134) not only can cancer be prevented—but in case after case it was actually healed! "Symptoms of cancer, liver dysfunction, and diabetes were completely alleviated." Remarkably, what Dr. Budwig discovered was a totally natural way for eradicating cancer.

However, when she went to publish these results so that everyone could benefit—she was blocked by manufacturers with heavy financial stakes! For over 10 years now her methods have proved effective—yet she is denied publication—blocked by the giants who don't want you to read her works.

What's more, the world is full of expert minds like Dr. Budwig who have pursued cancer remedies and come up with remarkable natural formulas and diets that work for hundreds and thousands of patients.

How to Fight Cancer & Win author William Fischer has studied these methods and revealed their secrets for you—so that you or someone you love may be spared the horrors of conventional cancer treatments.

As early as 1947, Virginia Livingston, M.D., isolated a cancer-causing microbe. She noted that every cancer sample analyzed (whether human or other animal) contained it.

This microbe—a bacteria that is actually in each of us from birth to death—multiplies and promotes cancer when the immune system is weakened by disease, stress, or poor nutrition. Worst of all, the microbes secrete a special hormone protector that short-circuits our body's immune system—allowing the microbes to grow undetected for years. No wonder so many patients are riddled with cancer by the time it is detected. But there is hope even for them...

Six-time Nobel Nominee's Two-Nutrient Cancer Breakthrough Revealed

Turn to page 82 of *How to Fight Cancer & Win* for the delicious diet that can help stop the formation of cancer cells and shrink tumors.

They walked away from traditional cancer treatments...and were healed! Throughout the pages of *How to Fight Cancer & Win* you'll meet real people who were diagnosed with cancer—suffered through harsh conventional treatments—turned their backs on so called modern medicine—only to be miraculously healed by natural means! Here is just a sampling of what others have to say about the book.

"We purchased *How to Fight Cancer & Win*, and immediately my husband started following the recommended diet for his just diagnosed colon cancer. He refused the surgery that our doctors advised. Since following the regime recommended in the book he has had no problems at all, cancer-wise. If not cured, we believe the cancer has to be in remission."

—Thelma B.

"I bought *How to Fight Cancer & Win* and this has to be the greatest book I've ever read. I have had astounding results from the easy to understand knowledge found in this book. My whole life has improved drastically and I have done so much for many others. The information goes far beyond the health thinking of today."

—Hugh M.

"I can't find adequate words to describe my appreciation of your work in providing *How to Fight Cancer & Win*. You had to do an enormous amount of research to bring this vast and most important knowledge to your readers.

My doctor found two tumors on my prostate with a high P.S.A. He scheduled a time to surgically remove the prostate, but I canceled the appointment. Instead I went on the diet discussed in the book combined with another supplement. Over the months my P.S.A. has lowered until the last reading was one point two."

—Duncan M.

"In my 55 years as a Country Family Physician, I have never read a more 'down to earth,' practical resume of cancer prevention and treatments, than in this book. It needs to be studied worldwide for the prevention of cancer by all researchers who are looking for a cure."

—Edward S., M.D.

"As a cancer patient who has been battling lymphatic cancer on and off for almost three years now, I was very pleased to stumble across *How to Fight Cancer & Win*. The book was inspiring, well-written and packed with useful information for any cancer patient looking to maximize his or her chances for recovery."

—Romany S.

"I've been incorporating Dr. Budwig's natural remedy into my diet and have told others about it. Your book is very informative and has information I've never heard about before (and I've read many books on the cancer and nutrition link). Thanks for the wonderful information."

—Molly G.

- Worsted weight yarn* (110 yds/50g per ball): 5 (5, 6, 7, 7) balls each white #8 (A), black #50 (B), 1 (1, 1, 1, 2) balls red #26 (C)

Gauge

20 sts and 28 rows = 4 inches/10cm in St st.

To save time, take time to check gauge.

Special Abbreviations

Purl 1 in back and front (p1b/f):

In next st, p1-tbl, then p1 in front loop, sl st off needle.

Knit 1 in front and back (k1f/b):

In next st, k1 in front loop, then k1-tbl, sl st off needle.

Special Techniques

I-cord: Using dpn, cast on 5 sts, do not turn; *sl sts to other end of needle, pull yarn across back, k5; rep from * to needed length. Cut yarn, leaving a 12-inch end, thread end through tapestry needle, run through sts and fasten off securely.

Applied I-cord Bind Off: With C, cast on 3 sts, using cable cast-on (see page 70). *K2, knit last cord st tog-tbl with 1 edge st; sl 3 worked sts back to LH needle, pull working yarn firmly across back; rep from *. When working this technique over a large area, if it's not laying flat, try substituting a k3tog-tbl (instead of k2tog-tbl) every 3 or 4 I-cord rows as needed to help keep knitting flat.

Pattern Notes

When changing colors, pick up new color under dropped color to cross or twist yarns and prevent holes. Do not carry colors across wrong side of work; add a new length of yarn for each square.

To lengthen sweater, add 2 more rows to each square; this will make sweater approx 2¼ inches longer.

Single Decreases

Knitting anything besides squares or rectangles requires the use of decreases and increases, meaning that any knitter beyond the rank novice needs to know how to work these simple shaping stitches. The way you approach them can make a significant impact on the finished look of the knitted piece. In this article, we'll discuss the various types of single decreases and which ones are best used for which applications.

Pattern instructions may or may not describe the type and placement of decreases. If the pattern simply says "decrease one stitch at each neck edge every other row," you must decide for yourself exactly which type of decreases to make and where to place them.

YOU MUST DECIDE FOR YOURSELF EXACTLY WHICH TYPE OF DECREASES TO MAKE AND WHERE TO PLACE THEM.

All two-stitches-become-one decreases create a slanting stitch, with the final stitch leaning either to the left or to the right depending on which decrease is used. To create a pleasing symmetry on a knitted piece, plan to mirror the decreases, using left-leaning stitches on one edge and right-leaning stitches on the opposite edge.

Consider the raglan shaping of a sleeve. After an initial underarm bind off, the two edges are decreased symmetrically. Using a line of left-leaning decreases along the right edge and a line of right-leaning decreases along the left edge creates a diagonal line of stitches that mimics

Single Decreases

- 1. Ssk (slip, slip, knit):** Individually slip next 2 stitches on left needle knitwise, replace on left needle in this position, then insert tip of right needle into backs of both stitches from right to left and knit them together, slip both stitches off needle. (slants left)
- 2. K2tog:** Insert tip of right needle in next 2 stitches on left needle from front to back (left to right), pull loop through, slip 2 stitches off needle. (slants right)

the direction of the shaping. In this example, the shaping becomes a design element.

Alternatively, if the decreases are made so as to lean toward the edge (right-leaning decrease on the right edge and left-leaning decreases on the left edge), no strong diagonal line appears. The stitches appear to be straighter. The shaping is more subtle, and perhaps more suited for the overall look desired.

Placement of the decreases is also important. In most instances, it works best to place decreases at least one stitch in from the edge in order to make finishing easier. In other words, on a round neckline edge, knit to three stitches from the neck edge, work a right-leaning decrease over the next two stitches, then knit the edge stitch. On the other side of the neck, knit one stitch, work a left-leaning decrease over the next two stitches, then knit to the end of the row. This placement leaves a single stitch at each edge available for picking up stitches for a neckband.

The most commonly used decreases involve only knit stitches, often worked on the right side of a stockinette-stitch fabric. However, purl

decreases are also possible. They may be used when working stitch patterns that use both knit and purl stitches. Purl decreases are often worked on the wrong side of a stockinette-stitch fabric, as when the pattern calls for decreasing on every row. While purl decreases do have a slant, the direction of the slant is most visible on the knit side of the stitch (the back side of the purl stitch). Therefore, when working purl decreases, it is most helpful to understand which way they slant on the knit side.

With yarn and needles in hand, take a few moments to experiment with the following decreases. Once you are familiar with the properties of each decrease, you will have more shaping options to choose from.

Knit-Side Single Decreases

Knit two together, commonly abbreviated as k2tog, is the easiest decrease. It creates a right-leaning stitch.

Insert right-hand needle from left to right through the second stitch on the left-hand needle and then the first stitch on the right-hand needle. Yarn over and knit up a stitch through both stitches.

Gauge is not critical to this project.
Piece was knitted very loosely and
will shrink when fulled.

Pattern Notes

I-cord is not fulled.

To close the wallet, use a button at

3-Needle Bind-Off

Use this technique for seaming two edges together, such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

Slip the first stitch over the second.

Repeat knitting, a front and back pair of stitches together, then bind one off.

Kitchener Stitch

This method of weaving with two needles is used for the toes of socks and flat seams. To weave the edges together and form an unbroken line of stockinette stitch, divide all stitches evenly onto two knitting needles—one behind the other. Thread yarn into tapestry needle. Hold needles with wrong sides together and work from right to left as follows:

Step 1:

Insert tapestry needle into first stitch on front needle as to purl. Draw yarn through stitch, leaving

Step 1

Step 2:

Insert tapestry needle into the first stitch on the back needle as to purl. Draw yarn through stitch and slip stitch off knitting needle.

Step 2

Step 3:

Insert tapestry needle into the next stitch on same (back) needle as to knit, leaving stitch on knitting needle.

Step 3

Step 4:

Insert tapestry needle into the first stitch on the front needle as to knit. Draw yarn through stitch and slip stitch off knitting needle.

Step 4

Step 5:

Insert tapestry needle into the next stitch on same (front) needle as to purl. Draw yarn through stitch, leaving stitch on knitting needle.

Step 5

Repeat Steps 2 through 5 until one stitch is left on each needle. Then repeat Steps 2 and 4. Fasten off. Woven stitches should be the same size as adjacent knitted stitches.

Fringe

Cut a piece of cardboard half as long as specified in instructions for length of strands plus 1/2 inch for trimming. Wind yarn loosely and evenly around cardboard. When cardboard is filled, cut yarn across one end. Do this several times, then begin fringing. Wind additional strands as necessary.

Single-Knot Fringe

Hold specified number of strands for one knot together, fold in half. Hold project to be fringed with right side facing you. Use crochet hook to draw folded end through space or stitch indicated from right to wrong side.

Pull loose ends through folded section. Draw knot up firmly. Space knots as indicated in pattern instructions.

Single-Knot Fringe

Working Short Rows

Wrap/Turn (w/t)

This method of working the shoulder avoids holes or a staggered bound-off edge.

Work as follows:

*Work to indicated turning point, take yarn to right side of fabric (in front on knit row, in back on purl row), slip next stitch purlwise, take yarn to wrong side of fabric (Photo A).

Turn work. Slip stitch, purlwise to right needle (Photo B).

Repeat from * until short rows are completed.

When all wraps are completed, work across row using the following method to work wrap and stitch together.

On knit side, insert tip of right needle into wrap, then into stitch and knit them together (Photo C).

On purl side, insert tip of right needle into wrap from right side, lift it onto left needle, then purl stitch and wrap together.

Provisional Cast-On

The provisional cast-on has a variety of uses. It starts with a crochet chain on a crochet hook about the same size as the knitting needle. A chart is given below of crochet hooks that correspond most closely to knitting needle sizes.

Crochet Hook	Knitting Needle
E	4
F	5
G	6
H	8
I	9
J	10½
K	10½

To work this type of cast-on, start with a crochet chain one or two stitches more than the number of stitches to be cast on for the pattern you are working. If the edge is to be decorative or removed to work in the opposite direction then the chain should be made with a contrasting color.

Once the chain is completed, with a knitting needle, pick up and knit in the back bump of each chain (Photo 1) until the required number of stitches is on the needle. Continue to work the pattern as given in the instructions.

Some instructions indicate that the provisional cast-on be removed so the piece can be worked in the opposite direction. In this case, hold the work with the cast-on edge at the top. Undo one loop of the crochet chain, inserting the knitting needle into the stitch below the chain. (This stitch is on the original first row of knitting.) Continue to undo the crochet chain until all the stitches are on the needle. (Photo 2) This provides a row of stitches ready to work in the opposite direction.

Photo 1

Photo 2

Pick Up & Knit

Step 1:

With right side facing, working 1 st in from edge, insert tip of needle in space between first and second stitch.

Step 1

Step 2:

Wrap yarn around needle. (We show a contrasting color, but you will want to use the same yarn you used for your project.)

Step 2

Step 3:

Pull loop through to front.

Step 3

Step 4:

Repeat steps 1-3.

Step 4

Duplicate Stitch

From underneath piece, bring yarn up in the center of the stitch below the stitch to be duplicated. Place needle from right to left behind both sides of the stitch above the one being duplicated, and pull yarn through (a). Complete the stitch by returning the needle to where you began (b).

Embroidery

Chain Stitch

Running Stitch

Twisted Cord

Items sometimes require a cord as a drawstring closing or strap. The number of lengths and weight of yarn determine the thickness of the cord.

To form the cord, hold the number of cords indicated together matching ends. Attach one end to a doorknob or hook. Twist the other end in one direction until the length is tightly twisted and begins to kink.

Sometimes the lengths are folded in half before twisting. In this case the loose ends are attached to the doorknob and a pencil is slipped into the folded

loop at the other end. Turn the pencil to twist the cord.

Once the cord is tightly twisted, continue to hold the twisted end while folding the yarn in the middle. Remove the end from the knob or hook and match the two ends, then release them allowing the cord to twist on itself.

Trim the cord ends to the desired length and knot each end. If the cord is woven through eyelets, it may be necessary to tie a second knot in the end to prevent it from slipping back through the eyelet opening.

We've included the basics here for your reference.

Cast On

Leaving an end about an inch long for each stitch to be cast on, make a slip knot on the right needle.

Place the thumb and index finger of your left hand between the yarn ends with the long yarn end over your thumb, and the strand from the skein over your index finger. Close your other fingers over the strands to hold them against your palm. Spread your thumb and index fingers apart and draw the yarn into a "V."

Place the needle in front of the strand around your thumb and bring it underneath this strand. Carry the needle over and under the strand on your index finger.

Draw through loop on thumb.

Drop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat until you have cast on the number of stitches indicated in the pattern. Remember to count the beginning slip knot as a stitch.

Cable Cast On

This type of cast on is used when adding stitches in the middle or at the end of a row.

Make a slip knot on the left needle. Knit a stitch in this knot and place it on the left needle. Insert the right needle between the last two stitches on the left needle. Knit a stitch and place it on the left needle. Repeat for each stitch needed.

Knit (k)

Insert tip of right needle from front to back in next stitch on left needle.

Bring yarn under and over the tip of the right needle.

Pull yarn loop through the stitch with right needle point.

Slide the stitch off the left needle. The new stitch is on the right needle.

Purl (p)

With yarn in front, insert tip of right needle from back to front through next stitch on the left needle. Bring yarn around the right needle counter-clockwise. With right needle, draw yarn back through the stitch.

Slide the stitch off the left needle. The new stitch is on the right needle.

Bind-Off

Binding off (knit)

Knit first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Knit the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

Binding off (purl)

Purl first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Purl the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

Increase (inc)

Two stitches in one stitch

Increase (knit)

Knit the next stitch in

the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and knit again into the back of the same stitch. Slip original stitch off left needle.

Increase (purl)

Purl the next stitch in the usual manner, but don't remove the stitch from the left needle. Place right needle behind left needle and purl again into the back of the same stitch. Slip original stitch off left needle.

Invisible Increase (M1)

There are several ways to make or increase one stitch.

Make 1 with Left Twist (M1L)

Insert left needle from front to back under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the back of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the back of the loop.

Make 1 with Right Twist (M1R)

Insert left needle from back to front under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the front of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the front of the loop.

Make 1 with Backward Loop over the right needle

With your thumb, make a loop over the right needle.

Slip the loop from your thumb onto the needle and pull to tighten.

Make 1 in top of stitch below

Insert tip of right needle into the stitch on left needle one row below.

Knit this stitch, then knit the stitch on the left needle.

Decrease (dec)

Knit 2 together (k2tog)

Put tip of right needle through next two stitches on left needle as to knit. Knit these two stitches as one.

Purl 2 together (p2tog)

Put tip of right needle through next two stitches on left needle as to purl. Purl these two stitches as one.

Slip, Slip, Knit (ssk)

Slip next two stitches, one at a time, as to knit from left needle to right needle. Insert left needle in front of both stitches and work off needle together.

Slip, Slip, Purl (ssp)

Slip next two stitches, one at a time, as to knit from left needle to right needle. Slip these stitches back onto left needle keeping them twisted. Purl these two stitches together through back loops.

Skill Levels

BEGINNER

Projects for first-time knitters using basic knit and purl stitches. Minimal shaping.

EASY

Projects using basic stitches, repetitive stitch patterns, simple color changes and simple shaping and finishing.

INTERMEDIATE

Projects with a variety of stitches, such as basic cables and lace, simple intarsia, double-pointed needles and knitting in the round needle techniques, mid-level shaping and finishing.

EXPERIENCED

Projects using advanced techniques and stitches, such as short rows, Fair Isle, more intricate intarsia, cables, lace patterns and numerous color changes.

KNITTING NEEDLES CONVERSION CHART

U.S.	0	1	2	3	4	5	6	7	8	9	10	10½	11	13	15
Metric(mm)	2	2¼	2½	3¼	3½	3¾	4	4½	5	5½	6	6½	8	9	10

Basic Stitches**Garter Stitch**

On straight needles knit every row. When working in the round on circular or double-pointed needles, knit one round then purl one round.

Stockinette Stitch

On straight needles purl right-side rows and purl wrong-side rows. When working on circular or double-pointed needles, knit all rounds.

Reverse Stockinette Stitch

On straight needles knit right-side rows and knit wrong-side rows. On circular or double-pointed needles, purl all rounds.

Ribbing

Combines knit and purl stitches within a row to give stretch to the garment. Ribbing is most often used for the lower edge of the front and back, the cuffs and neck edge of garments.

The rib pattern is established on the first row. On subsequent rows the knit stitches are knitted and purl stitches are purled to form the ribs.

Reading Pattern Instructions

Before beginning a pattern, look through it to make sure you are familiar with the abbreviations that are used.

Some patterns may be written for more than one size. In this case the smallest size is given first and others are placed in parentheses. When only one number is given, it applies to all sizes.

You may wish to highlight the numbers for the size you are making before beginning. It is also helpful to place a self-sticking note on the pattern to mark any changes made while working the pattern.

Measuring

To measure pieces, lay them flat on a smooth surface. Take the measurement in the middle of the piece. For example, measure the length to the armhole in the center of the front or back piece,

not along the outer edge where the edges tend to curve or roll.

Gauge

The single most important factor in determining the finished size of a knit item is the gauge. Although not as important for flat, one-piece items, it is important when making a clothing item that needs to fit properly.

It is important to make a stitch-gauge swatch about 4 inches square with recommended patterns and needles before beginning.

Measure the swatch. If the number of stitches and rows are fewer than indicated under "Gauge" in the pattern, your needles are too large. Try another swatch with smaller-size needles. If the number of stitches and rows are more than indicated under "Gauge" in the pattern, your needles are too small. Try another swatch with larger-size needles.

Continue to adjust needles until correct gauge is achieved.

Working From Charts

When working with more than one color in a row, sometimes a chart is provided to follow the pattern. On the chart each square represents one stitch. A key is given indicating the color or stitch represented by each color or symbol in the box.

When working in rows, odd-numbered rows are usually read from right to left, and even-numbered rows from left to right.

Odd-numbered rows represent the right side of the work and are usually knit. Even-numbered rows represent the wrong side and are usually purled.

When working in rounds, every row on the chart is a right-side row, and is read from right to left.

Use of Zero

In patterns that include various sizes, zeros are sometimes necessary. For example, k0 (0, 1) means if you are

making the smallest or middle size, you would do nothing, and if you are making the largest size, you would k1.

Glossary

bind off—used to finish an edge

cast on—process of making foundation stitches used in knitting

decrease—means of reducing the number of stitches in a row

increase—means of adding to the number of stitches in a row

intarsia—method of knitting a multi-colored pattern into the fabric

knitwise—insert needle into stitch as if to knit

make 1—method of increasing using the strand between the last stitch worked and the next stitch

place marker—placing a purchased marker or loop of contrasting yarn onto the needle for ease in working a pattern repeat

purlwise—insert needle into stitch as if to purl

right side—side of garment or piece that will be seen when worn

selvage stitch—edge stitch used to make seaming easier

slip, slip, knit—method of decreasing by moving stitches from left needle to right needle and working them together

slip stitch—an unworked stitch slipped from left needle to right needle, usually as if to purl

wrong side—side that will be inside when garment is worn

work even—continue to work in the pattern as established without working any increases or decreases

work in pattern as established—continue to work following the pattern stitch as it has been set up or established on the needle, working any increases or decreases in such a way that the established pattern remains the same

yarn over—method of increasing by wrapping the yarn over the right needle without working a stitch

Slip, knit, pass (SKP) creates a left-leaning stitch.

Insert the right-hand needle from right to left through the front of the next stitch on the left-hand needle and slip it off the needle (that is, slip next stitch purlwise). Knit the next stitch on the left-hand needle. Now insert the left-hand needle from left to right into the slipped stitch and lift

it over the last stitch knit.

Slip, slip, knit (SSK) also creates a left-leaning stitch which looks a bit smoother than the SKP.

Insert the right-hand needle from left to right through the front of the first stitch on the left-hand needle and slip it off the needle (that is, slip next stitch knitwise). Repeat for the next stitch on the left-hand needle. Now

insert the left-hand needle from left to right into the front of both of these slipped stitches. Yarn over and knit up a stitch through both stitches.

K2tog increases often look much smoother than their SSK sisters. One way to make the SSK look even more like the k2tog is to slip the first stitch knitwise, slip the second stitch purlwise, and then complete the stitch as described above. This twists the second stitch and snugs it down underneath the first stitch. Innovative knitter Cat Bordhi has come up with a different solution. She works the SSK as described above, but on the following round she knits into the back of the decreased stitch. (When working back and forth, purl into the back of the decreased stitch.)

Purl-side single decreases

Purl two together (p2tog) creates a right-leaning stitch on the knit side, and is therefore equivalent to a k2tog stitch.

Insert right-hand needle from right to left through the front of the next two stitches on the left-hand needle. Yarn over and purl these two stitches together.

Slip, slip, purl (SSP) creates a left-leaning stitch on the knit side, equivalent to an SSK. It seems a bit awkward at first, but is truly worth learning.

Insert right-hand needle from left to right into the front loop of the first stitch on the left-hand needle and slip the stitch off the needle. Repeat for the next stitch on the left hand needle. Insert left-hand needle from left to right into the front loops of the same two stitches and slip them back onto the left-hand needle. Now insert the right needle from left to right through the back loops of these same two stitches by putting it into the second stitch then into the first stitch. Yarn over and purl these two stitches together. ■
